

Certificate

This is to certify that Mr. / Ms. _____
studying in semester _____, class _____ of _____ having enrollment no. _____
has satisfactorily completed his / her term work in the subject **01CE2101 Computer Programming**, for
the term ending in the month of _____, year _____.

Date: _____

Faculty In-Charge

Name: _____

Signature: _____

Head of Department: _____

Table of Contents

Sr.	Experiment Description	Page	Date	Marks	Signature
Practical – 1					
1.	Motivational videos on Programming.	1			
2.	Introduction to Turbo C++/ CodeBlocks / visual source code.	3			
3.	Develop a program to print “Hello World”.	5			
4.	Develop a program to print your address i) using single printf ii) using multiple printf.	7			
5.	Develop a program to print addition of 2 numbers (with scanf).	9			
Practical – 2					
6.	Develop a program to convert temperature from Fahrenheit to Celsius. Hint: $C = ((F-32)*5)/9$	13			
7.	Develop a program to find percentage of 5 subjects.	15			
8.	Develop a program to convert seconds into hours, minutes & seconds and print in HH:MM:SS [e.g. 10000 seconds mean 2:46:40 (2 Hours, 46 Minutes, 40 Seconds)].	17			
Practical – 3					
9.	Develop a program to check whether the given number is positive or negative.	21			
10.	Develop a program to find out largest number from given three numbers using Logical Operator (&&).	23			
11.	Develop a program to check whether the given number is divisible by 11.	25			
12.	Develop a program to find out largest number from given three numbers without using Logical Operator (&&).	27			
Practical – 4					
13.	Develop a program to check whether the given year is leap year or not. [If a year can be divisible by 4 but not divisible by 100 then it is leap year but if it is divisible by 400 then it is leap year].	31			

Sr.	Experiment Description	Page	Date	Marks	Signature
14.	Develop a program to perform Addition, Subtraction, Multiplication and Division of 2 numbers as per user's choice.	33			
15.	Write a program that takes the number of days a library book is returned late and: » Charges 50 paisa if late up to 5 days » Charges ₹1 if late 6–10 days » Charges ₹5 if late 11–30 days » Cancels membership if late more than 30 days.	35			
Practical – 5					
16.	Develop a program to find out largest number from given 2 numbers using ternary operator.	39			
17.	Develop a program to read 3 numbers, multiply largest number from first two numbers to third one.	41			
18.	Develop a program to print day name based on day number using switch case.	43			
Practical – 6					
19.	Develop a program to print 1 to 10 using while.	47			
20.	Develop a program to find factorial of the given number.	49			
21.	Develop a program to find whether the given number is prime or not using break.	51			
22.	Develop a program to print digits of given number.	53			
23.	Develop a program to check whether the given number is palindrome or not.	55			
24.	Develop a program to check whether the given number is Armstrong or not.	57			
Practical – 7					
25.	Develop a program to print numbers from 1 to 10 using for statement.	61			
26.	Develop a program to print odd numbers from 1 to n.	63			
27.	Develop a program to calculate the sum of first n natural numbers.	65			
28.	Develop a program to display the n terms of odd natural number and their sum.	67			
29.	Develop a program to find factors of the given number.	69			

Sr.	Experiment Description	Page	Date	Marks	Signature
Practical – 8					
30.	Develop a program to find the sum of $1 + (1+2) + (1+2+3) + (1+2+3+4) + \dots + (1+2+3+4+\dots+n)$.	73			
31.	Develop a program to compute the value of e^x by using the formula $e^x = 1 + \frac{x}{1!} + \frac{x^2}{2!} + \frac{x^3}{3!} + \dots$	75			
32.	Develop a program to find out prime numbers between given two numbers.	77			
Practical – 9					
33.	Develop a program to display following patterns 1				

Sr.	Experiment Description	Page	Date	Marks	Signature
Practical – 11					
39.	Develop a program to read values in two dimensional array and print them in matrix form.	101			
40.	Develop a program to count number of positive, negative and zero elements from 3x3 matrix.	103			
41.	Develop a program to perform addition of two matrices.	105			
42.	Develop a program to calculate the length of given string using strlen.	107			
43.	Develop a program to copy string using strcpy.	109			
44.	Develop a program to compare two strings using strcmp.	111			
45.	Develop a program to concatenate two strings using strcat.	113			
46.	Develop a program to reverse string using strrev.	115			
Practical – 12					
47.	Develop a program to count simple interest using function.	119			
48.	Develop a program to generate Fibonacci series of N given number using function name fibbo. (e.g. 1 1 2 3 5 8...).	121			
49.	Develop a program to find the factorial of a given number using Recursion.	123			
Practical – 13					
50.	Develop a program to create structure of book with book title, author name, publication, and price. Read data of n books and display them.	127			
51.	Develop a program to access member of a union using union variable.	129			
52.	Develop a program to print value and address of a variable.	131			
53.	Develop a program to swap value of two numbers using pointer.	133			
Practical – 14					
54.	Develop a program to display content of a file.	137			
55.	Develop a program to copy source file to destination file.	139			

Practical – 1

Practical – 1

1) Motivational videos on programming.

Output:

2) Introduction to Turbo C++/ Codeblocks/ Visual Studio Code.

Output:

3) Develop a program to print "Hello World".

Output:

4) Develop a program to print your address i) using single printf ii) using multiple printf.

Output:

5) Develop a program to print addition of 2 numbers (with scanf).

Output:

Practical – 2

Practical – 2

6) Develop a program to convert temperature from Fahrenheit to Celsius.

Hint: $C = (F - 32) * 5 / 9$

Output:

7) Develop a program to find percentage of 5 subjects.

Output:

8) Develop a program to convert seconds into hours, minutes & seconds and print in HH:MM:SS [e.g. 10000 seconds mean 2:46:40 (2 Hours, 46 Minutes, 40 Seconds)].

Output:

Practical – 3

Practical – 3

Using simple if

9) Develop a program to check whether the given number is positive or negative.

Output:

10) Develop a program to find out largest number from given three numbers using logical operator (&&).

Output:

Using if...else...

11) Develop a program to check whether the given number is divisible by 11.

Output:

Using nested if

12) Develop a program to find out largest number from given three numbers without using Logical Operator (&&).

Output:

Practical – 4

Practical – 4**Using if...else if... else**

13) Develop a program to check whether the given year is leap year or not. [If a year can be divisible by 4 but not divisible by 100 then it is leap year but if it is divisible by 400 then it is leap year].

Output:

14) Develop a program to perform Addition, Subtraction, Multiplication and Division of 2 numbers as per user's choice.

Output:

15) Write a program that takes the number of days a library book is returned late and:

- » Charges 50 paisa if late up to 5 days
- » Charges ₹1 if late 6–10 days
- » Charges ₹5 if late 11–30 days
- » Cancels membership if late more than 30 days.

Output:

Practical – 5

Practical – 5**Using Conditional operator (expr1?expr2:expr3)**

16) Develop a program to find out largest number from given 2 numbers.

Output:

17) Develop a program to read 3 numbers, multiply largest number from first two numbers to third one.

Output:

Using Switch statement

18) Develop a program to print day name based on day number.

Output:

Practical – 6

Practical – 6

Discuss while loop

19) Develop a program to print 1 to 10.

Output:

20) Develop a program to find factorial of the given number.

Output:

21) Develop a program to find whether the given number is prime or not using break.

Output:

22) Develop a program to print digits of given number.

Output:

23) Develop a program to check whether the given number is palindrome or not.

Output:

24) Develop a program to check whether the given number is Armstrong or not.

Output:

Practical – 7

Practical – 7

Discuss for loop

25) Develop a program to print numbers from 1 to 10.
--

Output:

26) Develop a program to print odd numbers from 1 to n.

Output:

27) Develop a program to calculate the sum of first n natural numbers.

Output:

28) Develop a program to display the n terms of odd natural number and their sum.

Output:

29) Develop a program to find factors of the given number.

Output:

Practical – 8

Practical – 8**Discuss nested for loop**

30) Develop a program to find the sum of $1 + (1+2) + (1+2+3) + (1+2+3+4) + \dots + (1+2+3+\dots+n)$.

Output:

31) Develop a program to compute the value of e^x by using the formula

$$e^x = 1 + \frac{x}{1!} + \frac{x^2}{2!} + \frac{x^3}{3!} + \dots$$

Output:

32) Develop a program to find out prime numbers between given two numbers.

Output:

Practical – 9

Practical – 9

33) Develop a program to display following patterns

1	1	1	*	*****
2 3	0 1	A B	* *	*****
4 5 6	1 0 1	2 3 4	* * *	*****
7 8 9 10	0 1 0 1	C D E F	* * * *	*****

				*

Output:

Output:

Output:

34) Develop a program to draw Pascal's triangle.

Output:

Practical – 10

Practical – 10

35) Develop a program to count number of positive or negative number from an array of n numbers.

Output:

36) Develop a program to read n numbers in an array and print them in reverse order.

Output:

37) Develop a program to find Max, Min, Sum, Avg of given numbers from an array.

Output:

38) Develop a program to sort elements of an array in an ascending order.

Output:

Practical – 11

Practical – 11

39) Develop a program to read values in two-dimensional array and print them in matrix form.

Output:

40) Develop a program to count number of positive, negative and zero elements from 3 x 3 matrix.

Output:

41) Develop a program to perform addition of two matrices.

Output:

42) Develop a program to calculate the length of given string using strlen.

Output:

43) Develop a program to copy string using strcpy.

Output:

44) Develop a program to compare two strings using strcmp.

Output:

45) Develop a program to concatenate two strings using strcat.

Output:

46) Develop a program to reverse string using `strrev`.

Output:

Practical – 12

Practical – 12

47) Develop a program to count simple interest using function.

Output:

48) Develop a program to generate Fibonacci series of N given number using function name fibbo. (e.g. 1 1 2 3 5 8...)

Output:

49) Develop a program to find the factorial of a given number using recursion.

Output:

Practical – 13

Practical – 13**Structure and Union**

50) Develop a program to create structure of book with book title, author name, publication, and price. Read data of n books and display them.

Output:

51) Develop a program to access members of a union using union variable.

Output:

Pointers

52) Develop a program to print value and address of a variable.

Output:

53) Develop a program to swap value of two numbers using pointer.

Output:

Practical – 14

Practical – 14

54) Develop a program to display content of a file.

Output:

55) Develop a program to copy source file to destination file.

Output:
